Dear Sir:

Applicant hereby petitions to correct the International Application Number associated with the above-identified application from PCT/JP2005/0033139 to PCT/JP2005/003139.

The above-identified application entered the National stage in the U.S. on August 30, 2006. When the application was filed, the transmittal letter to the United States designed/elected office concerning a filing under 35 U.S.C. 371 specified an International Application Number of PCT/JP2005/0033139 due to an inadvertent typographical error. Accompanying the filed application was a copy of the published International Application reflecting the correct application number of PCT/JP2005/003139. Also included was a Declaration identifying the International Application by the correct number, as well as forms PCT/IB/304 and PCT/IB/308, each of which identify the correct International Application Number PCT/JP2005/003139.

That is, the only place where the incorrect International Application Number appeared was on the transmittal letter, which error occurred due to a typographical error in which the number three was typed twice instead of once.

Inasmuch as the filing was complete and proper in all other respects excepting for the typographical error on the transmittal letter, Applicant requests that the above-identified serial number be associated with the correct International Application Number PCT/JP2005/003139.

Please charge any required fees to our Deposit Account No. 02-2666.

Respectfully submitted,
